ABOUT ME

I am dedicated to an education in Computer Science Engineering. I am committed to continuous learning and am eager to apply my technical skills to create innovative solutions in a dynamic development environment.

EDUCATION

HSC
Thanthai Hans Roever Matric School
Percentage: 80.00%

B.E. in Computer Science
Hindusthan institute of technology | 2022-26
CGPA - 8.2% with honours.

INTERNSHIP

Full Stack Development

Completed a full stack web development internship at Emglitz Technologies, Coimbatore. Collaborated on responsive web interfaces using HTML, CSS, React and JavaScript.

WORK EXPERIENCE

Fresher | 2025

Designing intuitive and responsive application interfaces using standard UI/UX principles. Developing clean and efficient code following established software engineering practices such as version control and design patterns.

CERTIFICATIONS

Machine Learning Foundation Certification
Infosys Springboard

Automation Developer Associate Training (v2023.10) for ICT Academy
UiPath

GIT, GITLAB, GITHUB FUNDAMENTAL FOR SOFTWARE DEVELOPERS
Udemy

SKILLS

Programming language:
- Java
- Python

Web Technologies:
- React
- Node
- HTML
- CSS
- JavaScript
- Next.js
- Firebase

PROJECTS

Startupverse

- Many people have startup ideas, but they lack sponsors who can guide them and help bring their projects to life. Our website aims to bridge this gap by identifying startup ideas and connecting sponsors directly with the innovators.

Mobile Application for Direct Market Access for Farmer

- The motive of our project is to link farmers directly with buyers. Middlemen usually take commissions, which reduces the farmers' profit. Our aim is to eliminate the middlemen and create a direct connection between farmers and buyers.
